

Happy Face

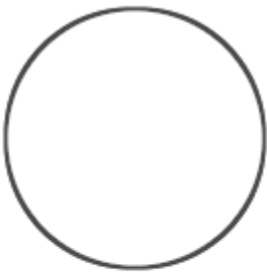

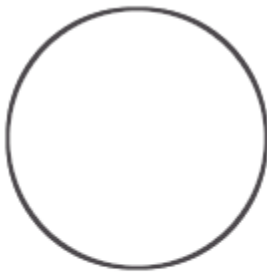

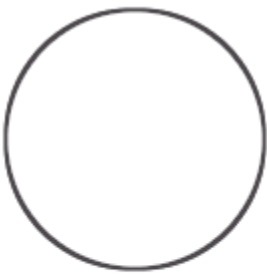

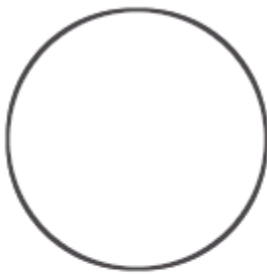

Think of a word that is 4 to 6 letters long. Put that many dashes under the Circle.

Have your opponent guess the word, by trying to guess letters in the word.

It is helpful to let opponent know the subject or category of the word. (colors, states, animals ...)

They will have 7 tries (2 eyes, 1 nose, 1 mouth, 2 ears and hair).

Use the alphabet to cross off used letters.
